The HAARP project in Alaska is one of the most controversial projects ever undertaken by the U.S. Government. Jerry Smith gives us the history of the HAARP project and explains how it can be used as an awesome weapon of destruction. Smith exposes a covert military project and the web of conspiracies behind it. HAARP has many possible scientific and military applications, from raising a planetary defense shield to peering deep into the earth. Smith leads the reader down a trail of solid evidence into ever deeper and scarier conspiracy theories in an attempt to discover the whos and whys behind HAARP, and discloses a possible plan to rule the world. At best, HAARP is science out-of-control; at worst, HAARP could be the most dangerous device ever created, a futuristic technology that is everything from super-beam weapon to world-wide mind control device. The Star Wars future is now! Topics include Over-the-Horizon Radar and HAARP, Mind Control, ELF and HAARP, The Telsa Connection, The Russian Woodpecker, GWEN & HAARP, Earth Penetrating Tomography, Weather Modification, Secret Science of the Conspiracy, more. Includes the complete 1987 Bernard Eastlund patent for his pulsed super-weapon that he claims was stolen by the HAARP Project.
